Mooney M20K

ILLUSTRATED PARTS CATALOG

MOONEY AIRCRAFT CORPORATION

LOUIS SCHREINER FIELD, KERRVILLE, TEXAS 78028

AUGUST, 1998 MANUAL NUMBER 235

WARNING: Manufactured with 1,1,1 Trichloroethane substances which are determined to harm public health and the enviroment by destroying ozone in the upper atmosphere.

This warning applies to placards manufactured at Mooney Aircraft Corporation facility and installed on the Mooney Aircraft Model(s) addressed in this publication.

WARNING: Manufactured with 1,1,1 Trichloroethane substances which are determined to harm public health and the enviroment by destroying ozone in the upper atmosphere.

This warning applies to certain adhesives procured from vendors and utilized on the applicable Mooney Aircraft Model(s) addressed in this publication.

INTRODUCTION

This Illustrated Parts Catalog is designed to assist in the identification of standard replacement parts for the Mooney M20K series aircraft S/N 25-0001 thru 25-TBA. This parts catalog should not be utilized for references pertaining to any other models of Mooney aircraft.

The Introduction Section should be read carefully to become familiar with the catalog arrangement and the correct procedures for ordering repair parts. A Group Assembly Index is included to help locate a particular system's text and illustration.

GROUP ASSEMBLY PARTS LISTINGS

The body of the catalog lists all standard replaceable components in the aircraft. Each illustration is accompanied by an assembly breakdown in its adjacent text listing. Those parts not listed separately are items that lose their identity through being an integral part of assemblies which would be impractical to stock other than as complete assemblies.

TO LOCATE A PART

1. When Part Number is KNOWN. - Refer to the alpha-numerical index, locate the Part No., note the FIGURE and INDEX NO. Turn to the figure number illustration or text page for desired information.

2. When Part Number is NOT KNOWN. - Refer to the GROUP ASSEMBLY INDEX in the Introduction Section of the manual. This index lists titles and page numbers of all group assembly illustrations in the catalog. Illustration INDEX NO.'s refer to INDEX NO.'s on the adjoining text pages (parts callouts). Find the area of aircraft desired, locate FIGURE NO. or PAGE NO. and turn to that illustration to locate the desired part. The PART NUMBER will be listed on the text page following the INDEX NO. shown.

The following is a brief explanation of the columns and abbreviations in the parts listings:

The **FIGURE and INDEX** number that appears in the first left-hand column of each text page, key the text to the illustration. The number to the left of the dash is the FIGURE NUMBER. The INDEX NUMBER provides cross reference from the part numbers appearing on the text page to the iso-metric view of the part on the accompanying illustration. When one figure depicts both LEFT and RIGHT hand assemblies, or parts, the left-hand configuration is NORMALLY illustrated and the part numbers of both LEFT HAND and RIGHT HAND components are shown on the text page under the same INDEX NO. Part numbers shown on the text page without INDEX NO.'s are normally alternate parts or assemblies for which all detail parts are illustrated and indexed. Encircled illustration index numbers, without leader lines, are used to designate the entire adjacent assembly shown as a unit. INDEX NUMBERS should NOT be used in identifying parts for ordering purposes.

The **PART NUMBER** column identifies the item by its assembly or detail part number. This is the part number to be used when ordering any repair parts. Mooney part numbers are used in preference to vendor numbers, where possible. Replacement part numbers may differ from part number shown in this Illustrated Parts Catalog of component being replaced due to later part numbers being interchangeable in form, fit and function.

The **DESCRIPTION** column lists each part on the text page of the Group Assembly Part List and is indented to indicate assembly relationship. Each part is indented one column to the right of its Next Higher Assembly (NHA). When the details of an assembly are shown on a different figure, the nomenclature of the assembly is followed by a notation to locate the detail parts. For example: FIGURE 3, 210000-501, Main Spar Assembly, (SEE FIG 5). The detail parts of the Main Spar Assembly will appear in FIGURE 5. The Main Spar Assembly will be referenced (REF) at the first entry in the UNITS/ASSY column on the text page of FIGURE 5 and will cross reference the relationship to the NEXT HIGHER ASSEMBLY (NHA) using the notation, (SEE FIG 3) in the DESCRIPTION column.

INTRODUCTION (con't.)

Attaching hardware or parts, indented with the symbol "@", are shown with the quantity required for installation of ONE UNIT of the foregoing assembly. Attaching hardware or parts immediately follow the item they attach and precede any detail parts of the foregoing assembly in the text callout, unless the detail parts of the assembly are not individually illustrated.
Structural rivets are not normally identified, since they are often replaced in next larger sizes. The abbreviation "NI" designates the more significant non-illustrated items.
When detail parts of the assembly are not individually portrayed, the attaching parts follow the detail parts. Series of non-illustrated detail parts are listed by their spatial order within the assembly as follows:-forward to aft, top to bottom, inboard to outboard, left to right. It should be noted that some portrayed assemblies bearing encircled index numbers omit some of the more significant detail parts (such as skins) for the purpose of clarity.

Abbreviations used in the description column are as follows:

@	-attaching parts	WS	-wing station	IB	-inboard
NI	-not illustrated	FS	-fuselage station	OB	-outboard
LH	-left hand	BL	-butt line	LE	-leading edge
RH	-right hand	AR	-as required	TE	-trailing edge
NHA	-next higher assy				

Normally each entry in the UNITS PER ASSEMBLY column represents the total quantity of that part or assembly as used in or for one unit of its next higher assembly. Consequently, when an entry has an indented part description ("." or "@"), its units per assembly column shows the number of items required to complete or attach one of the next higher assembly of which it is a component or an attaching part.

The EFFECTIVITY column is blank where the part is applicable to ALL M20K series aircraft. A Roman Numeral entry in the effectivity column indicates a special or limited use of that part. The EFFECTIVITIES will be shown after the text entries.
When any special reference or explanation is determined to be necessary an Arabic Numerial is shown, at the far right of the EFFECTIVITY column, to reference a NOTE printed on the last page of the text.

HOW TO ORDER PARTS

Place your order with any Mooney Service Center in your area. Parts are available only through these authorized Mooney facilities. All orders received at the factory that originate from other sources will be referred to the appropriate facility for processing. Always specify the PART NUMBER, DESCRIPTION, QUANTITY, and AIRCRAFT SERIAL NUMBER for all parts orders. Give complete shipping address information, including ZIP CODE for all orders. When the method of shipment (freight, express, parcel post, air express, air freight, or air parcel post) is not specified, or when the nature of the shipment requires special handling, parts will be shipped by the means most suitable to the shipper.

LIABILITIES

Orders are double checked before leaving the Mooney shipping department, and a packing slip is enclosed in the shipment. Claims for errors or shortages must be made, to the Mooney Service Parts Department, within three days after receipt of orders. **No material should be returned without first obtaining written permission from the factory.** Goods returned without notice will be held at owner's risk for thirty days and then be disposed of at the company's discretion. Transportation charges for returned goods must be prepaid or the shipment will be refused.
Mooney Aircraft Corporation cannot be held liable for damage to parts incurred in transit. If a shipment is received in a damaged condition, have the delivery man or shipping company make a notation of the damage and file the claim with the carrier.

INTRODUCTION (con't.)

Mooney Aircraft Corporation reserves the right to supply substitute parts, interchangeable with the part ordered, due to design changes, later specifications, supply availability or product improvement. These substitute Part Numbers may not be listed in the IPC being used in the field, however, the substitute, new, replacing or alternate part numbers will be added to the next revision of the IPC.

CAUTION

This parts catalog is intended only to aid in the ordering of replacement parts. The illustrations omit many details for the sake of clarity. Dimensions, systems routing, and irrelevant detail have been intentionally distorted for maximum economy of space utilization. Therefore, it is essential that the illustrations not be used as guides for reassembly and installation of components. The Mooney Service and Maintenance Manual for the M20K is to be used for all airframe maintenance actions.

ALPHA-NUMERIC INDEX

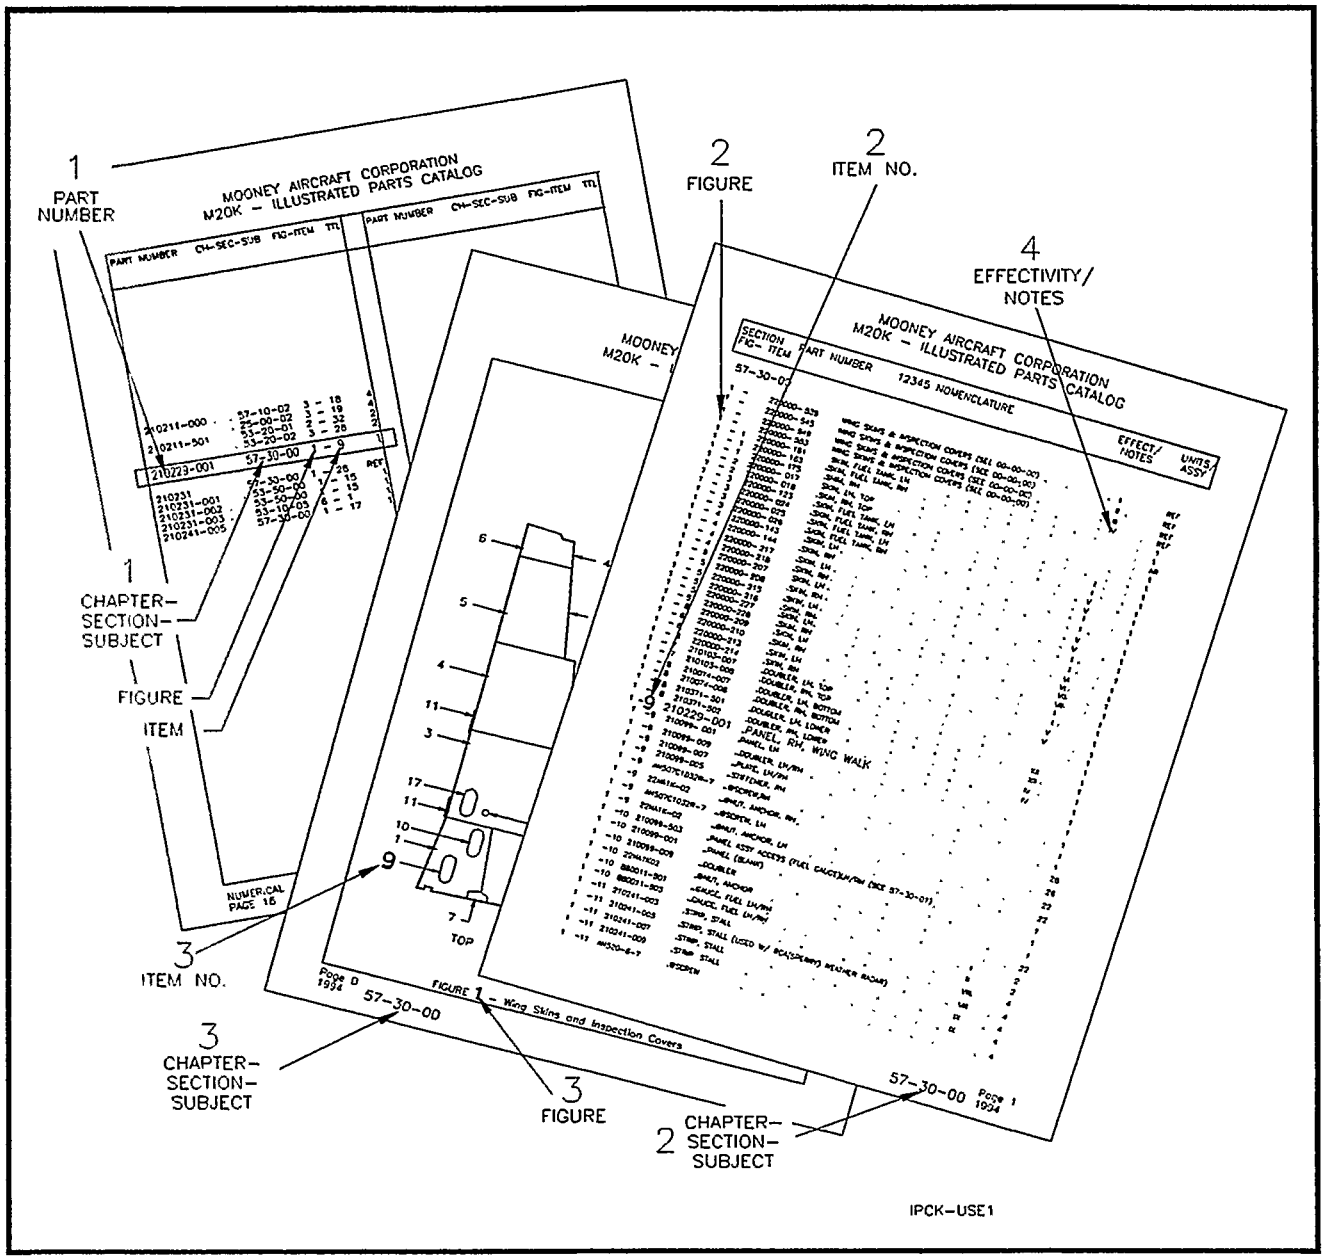

The ALPHA-NUMERIC Part Number sort order of this index may be different from other sort orders that you as a mechanic are familiar with. The sort sequence is as follows:

SPACES
DASHES
SPECIAL CHARACTERS
NUMERIC ZERO THRU 9
ALPHABETICAL A THRU Z

The Part Number is normally not repeated after its first appearance, even at the top of the next column. It should be clear that the listings for a Part Number continue until another Part Number is listed.
In some cases the Part Number will be repeated in the first column at the beginning of a new page.

HOW TO USE THE ILLUSTRATED PARTS CATALOG

- WHEN THE PART NUMBER IS KNOWN -

1. Find PART NUMBER in the alpha-numerical index. Note the CHAPTER, SECTION, FIGURE AND INDEX NUMBER assigned to the PART NUMBER.

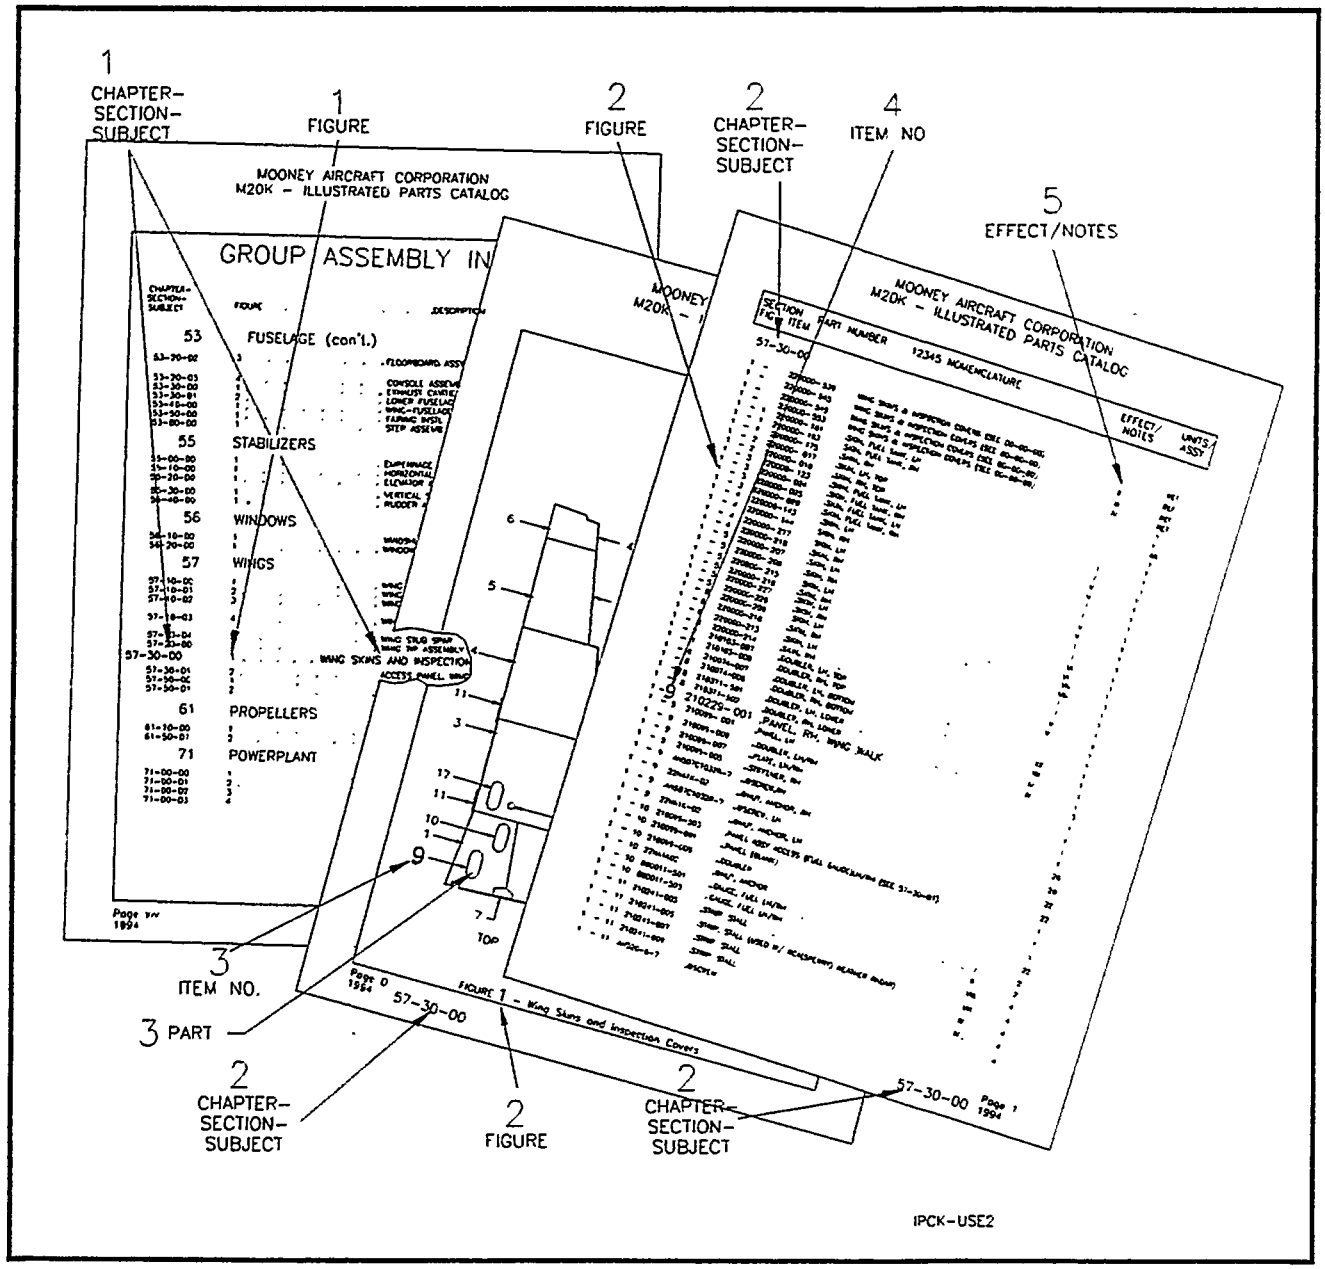

2. Turn to the CHAPTER, SECTION, FIGURE NUMBER indicated and locate the INDEX NUMBER referenced in the Numerical Index.

3. If a pictorial representation of the part, or its location is desired refer to the same INDEX NUMBER on the accompanying illustration.

4. Refer to the EFFECTIVITY or NOTES column to check for special or limited usage of parts.

HOW TO USE THE ILLUSTRATED PARTS CATALOG

- WHEN THE PART NUMBER IS NOT KNOWN -

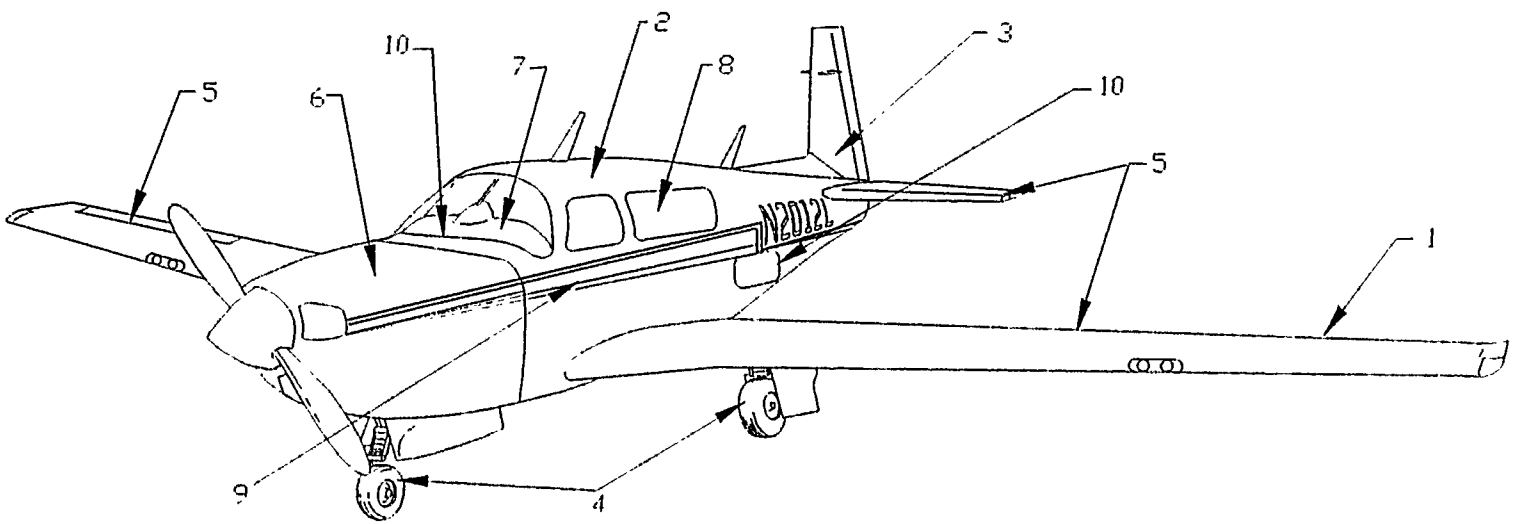

1. Find the CHAPTER, SECTION and FIGURE number in the GROUP ASSEMBLY INDEX in which the part is most likely used.

2. Turn to CHAPTER, SECTION, FIGURE; determined in Step 1.

3. Locate the part and its INDEX NUMBER on the illustration.

4. Find the INDEX NUMBER on the Parts List to determine complete description.

5. Refer to the EFFECTIVITY or NOTES column to check for special or limited usage of parts.

OPERATIONAL LIMITATIONS

THIS AIRPLANE MUST BE OPERATED AS A NORMAL CATEGORY AIRPLANE IN COMPLIANCE WITH THE OPERATING LIMITATIONS STATED IN THE FORM OF PLACARDS, MARKINGS AND MANUALS. NO AEROBATIC MANEUVERS, INCLUDING SPINS, ARE APPROVED MAX SPEED WITH LANDING GEAR EXTENDED, 150 MPH (130 KTS) MAX SPEED TO RETRACT GEAR, 120 MPH (104 KTS) MAX SPEED TO EXTEND GEAR, 150 MPH (130 KTS) MAX MANEUVERING FLIGHT LOAD FACTOR-FLAPS UP + 3.8 -1.5, DN +2.0 -0

EMERGENCY MANUAL GEAR EXTENSION

1 PULL LANDING GEAR CIRCUIT BREAKER
2 PUT GEAR SWITCH IN GEAR DOWN POSITION
3 PUSH RELEASE TAB FORWARD AND LIFT UP RED HANDLE
4 PULL T-HANDLE STRAIGHT UP (12 TO 20 INCHES)
5 ALLOW T-HANDLE TO RETURN TO ORIGINAL POSITION.
6 REPEAT UNTIL GEAR DOWN LIGHT COMES ON (12 TO 20 PULLS) IF TOTAL ELECTRICAL FAILURE-SEE MECHANICAL INDICATOR

CAUTION

1 TURN OFF STROBE LITES WHEN TAXIING NEAR OTHER ACFT OR WHEN FLYING IN FOG OR IN CLOUDS. STD POSITION LITES MUST BE USED FOR ALL NIGHT OPERATIONS
2 IN CASE OF FIRE TURN OFF CABIN HEAT
3 DO NOT SCREW VERNIER CONTROLS CLOSER THAN 1/8" FROM NUT FACE

267

OPERATIONAL LIMITATIONS

THIS AIRPLANE MUST BE OPERATED AS A NORMAL CATEGORY AIRPLANE IN COMPLIANCE WITH THE OPERATING LIMITATIONS STATED IN THE FORM OF PLACARDS, MARKINGS AND MANUALS. NO AEROBATIC MANEUVERS, INCLUDING SPINS, ARE APPROVED MAXIMUM SPEED WITH LANDING GEAR EXTENDED, 130 KIAS MAXIMUM SPEED TO RETRACT GEAR, 104 KIAS MAXIMUM SPEED TO EXTEND GEAR, 130 KIAS MAXIMUM MANEUVERING FLIGHT LOAD FACTOR-FLAPS UP + 3.8, -1.5, DN +2.0,-0

EMERGENCY MANUAL GEAR EXTENSION

1 PULL LANDING GEAR CIRCUIT BREAKER
2 PUT GEAR SWITCH IN GEAR DOWN POSITION
3 PUSH RELEASE TAB FORWARD AND LIFT UP RED HANDLE
4 PULL T-HANDLE STRAIGHT UP (12 TO 20 INCHES)
5 ALLOW T-HANDLE TO RETURN TO ORIGINAL POSITION.
6 REPEAT UNTIL GEAR DOWN LIGHT COMES ON (12 TO 20 PULLS) IF TOTAL ELECTRICAL FAILURE-SEE MECHANICAL INDICATOR

NOTES:

1. CONTROL WHEEL AND AVIONICS PANEL PLACARDS ARE INSTALLED PER OPTIONAL AVIONICS SYSTEM REQUIREMENTS (SEE SECTION IX OF PILOTS OPERATING HANDBOOK ORDER PLACARDS FROM MFG).

2. USE WITH 850002 BRAKE RESERVOIR ONLY (SEE FIG 42).

3. ORDER ELT/SWITCH PLACARDS AND CIRCUIT BREAKER PLACARDS BY AIRCRAFT SERIAL NUMBER TO ALLOW SERVICE PARTS PERSONNEL TO IDENTIFY THE EXACT PART NUMBER INSTALLED IN AIRCRAFT AT TIME OF MANUFACTURE.

4. REMOVED BY ENGINEERING ORDER CK.

NOTES:

1. USE WITH 640314-501 AND 640314-509 DEFROSTER SYSTEM INSTALLATION ONLY.

2. USE WITH 640314-503 AND 640314-507 DEFROSTER SYSTEM INSTALLATION ONLY.

3. DRILL #30 (.128) TOOLING HOLES MAY BE ADDED, QTY. AND LOCATION AS REQUIRED. EXPOSES TOOLING HOLES TO BE PLUGGED WITH MS20470AD4 OR MS24026AD4 RIVETS.

4. -505 BLOWER IS AN ALTERNATE/SPARES REPLACEMENT FOR -501 & -503 BLOWERS.

III	25-1000 THRU 25-TBA
IV	25-1214 THRU 25-TBA
V	25-2000 THRU 25-TBA

NOTES:

1. USED AS ALTERNATE FOR 860052-509 VACUUM SYS INSTL, WHEN DUAL ALTERNATOR IS USED.
2. DELETED
3. 242CW-10 VACUUM PUMP IS PREFERRED ALTERNATE FOR ALL CLOCKWISE DRIVEN PUMPS.
4. 940064-501 VACUUM PUMP EXHAUST SYSTEM RETROFIT KIT MAY BE USED; EFFECTIVE, 25-0001 THRU 25-TBA.
5. AN840-6D ADAPTOR MAY BE USED IN LEU OF AN844-6D ELBOW IF, AFTER CORRECT TORQUE IS MET, THE ELBOW IS ORIENTED IMPROPERLY.
6. SIGMA-TEC P/N 1U128-006: VENDOR CHANGED ROTOR MATERIAL IN -005 PUMP.
7. SEE 95-00-02 FOR #2 STAND-BY GENERATOR (12V) & VACUUM PUMP ADAPTER DRIVE AND COMPONENTS.
8. EM-8014 ADAPTER ASSEMBLY USED ON AND2000 ENGINE ACCESSORY MOUNTING PAD FOR VACUUM PUMPS WHEN DUAL ALTERNATOR IS INSTALLED ON -MB OR -SB ENGINE CONFIGURATION.

NOTES:

1. USE SFS6C6D-L01BK THRU SFS6C20D-L01BK SCREWS (STAKE FASTENER CO) TO INSTALL INSTRUMENTS, SWITCHES, GAUGES, AND FILLERS; LENGTH AS REQUIRED FOR ACCEPTABLE THREAD EXPOSURE. WHEN ALTERNNATE POLY PLASTEX LAB 10386-1 MATERIAL IS USED, SCREW COLOR CODE TO BE SC8BG.
2. USE 820312-001 THRU 820312-015 FILLERS TO COVER INSTRUMENT OR SWITCH OPENINGS NOT FILLED BY SALES ORDER.
3. 800344-503 IS PREFERED CONTROL. 800344-501 MAY BE USED IN AIRCRAFT WITH SMALL AVIONICS PACKAGE.
4. FABRI-SHIELD SIXE 7/8 SPEC #6500009, FROM KENT ELEC. MAY BE USED AS REQUIRED BY INSTALLATION AROUND AVIONICS/ELECTRICAL CABLES FOR SHIELDING.
5. ACTUAL INSTRUMENTS INSTALLED IN AIRCRAFT WILL BE DOCUMENTED BY MOONEY. CUSTOMER CAN CONTACT PARTS DEPARTMENT AT MOONEY AND WITH A/C SERIAL NO. GET LIST OF ALL INSTRUMENTS INSTALLED.

NOTES:

1. BLOWER MOTOR ASSY MAY BE USED IN 810414-503 INSTALLATION ON EITHER 12 OR 24 VOLT SYSTEMS.
2. DUCT SUPPLIED AS PART OF BLOWER MAY BE USED AS AN ALTERNATE FOR 810414-003 DUCT. THE 810414-007 ADAPTER IS NOT REQUIRED AT THREE LARGE (3/4 INCH) BLOWER FITTINGS WHEN THE ALTERNATE DUCT IS USED.
